Cutting Out Hearts

Starting with standard printer paper, create each of the following decompositions by making as many folds as you like and cutting \textit{exactly one} comma-shaped arc, like this:

\begin{center}
\begin{tikzpicture}
  \draw (0,0) -- (1,0) -- (1,1) -- (0,1) -- (0,0);
  \draw (0.5,0.5) circle (0.5);
\end{tikzpicture}
\end{center}
