### ***There Is No One Way to Teach Math: Actionable Ideas for Grades 6-9***

Most of this talk is based on the book I co-authored with Robin Pemantle. The book, in turn, is based on my 43 years in the classroom and 53 years in the profession.

It is available from [routledge.com](http://routledge.com)'s Eye on Education. Use the code *SMA24* until January 31, 2025 to get 20% off.

### **On my Website ([www.MathEducation.page](http://www.MathEducation.page))**

Find many relevant articles and activities on my website:
